OBJECTIVE

Engineering student with a strong passion for UI/UX design, coding, and digital marketing. Committed to crafting visually engaging and technically sound solutions by seamlessly blending creativity with analytical thinking to deliver innovative and impactful user experiences.

EDUCATION

GRT institute of Engineering and Technology   **India, Tiruttani**

Bachelor of Computer Science with Honors in Cyber Security   Expected Graduation, May 2026

CGPA : 8.82

PROJECTS

Track n Trip – *using Figma*

Track n Trip is a UI/UX case study for a smart travel assistant app offering personalized suggestions for destinations, routes, and stays. It focuses on mood-based trip planning and localized insights, enhancing travel experiences for both local and international tourists.

Wix Portfolio Design – *using Wix studio*

Designed and developed a responsive, visually appealing portfolio on Wix Studio to showcase my graphic design, UI/UX, and storytelling skills. Focused on intuitive user experience with branding-aligned layout, color schemes, and typography.

Personal Portfolio – *using HTML,CSS*

Designed and developed a fully responsive personal portfolio using HTML and CSS. Emphasized clean layout, intuitive navigation, and visual storytelling to create an engaging user experience aligned with my creative identity.

INTERNSHIP

UI UX Intern   **Coimbatore**

Techinta   June 2025 – July 2025

- Completed a UI/UX design internship at **Techinta**, gaining valuable hands-on experience in user research, wireframing, and interface design.
